REGISNATION

There is an English saying that "WE MEET TO PART WE PART TO ME". As the centre we are very sad to bid farewell to our long serving colleague Mr Titus Thitho Kebuileng who ended his notice on the 26th September 2014. Mr T. T. Kebuileng has been working for Pudulogong for 17 years, that is from 1997 till 2014. He was first employed as a driver till he became the Orientation and Mobility instructor because of his commitment to work. On his farewell note he stated that he was very sad to leave the centre but he will always be part of the Centre. Different speakers also had an opportunity to speak about their time with Titus and indeed it shows he had much contribution and dedication to his work. He leaves as the Orientation and Mobility instructor. We wish him well in his future endeavours

Mr T. T. Kebuileng

PUREDET SPONSORED WALK

On the 2nd of August PUREDET embarked on a sponsored walk from the school buildings to bokaa robots and back. The aim of the sponsored walk was to raise funds for the school buildings so they can be renovated. The theme was "DON'T PULL ME, WALK WITH ME" this in short meaning just because I do not see doesn't mean I should be pulled around, walk beside me and I will find the way. All thank you goes to our sponsors who made this day possible being Price Water Coopers and sugar industries and also all others that contributed to make the day a success. Also thank you goes to staff and students of PUREDET together with all those who joined on the walk for their time and commitment on honouring this day.

ATTACHMENT- STUDENTS FAREWELL

Every year we have student from different institutions studying special education who come to the centre to do their practical's. Two students from University of Botswana joined the centre on attachment for 2 months. This was Mrs Nthoesana and Miss Keakeditswe. They were basically dealing with braille and business studies. The objective of this attachment was to exercise their theory practically. After the two months of study they were here the centre saw it of need to bid farewell to the students with some snacks. Among the UB student there was a Tlokweng Brigade student who also was on attachment at the centre her name being Kagiso Lentswenyane. Still on attachment there was one other student who studies in Tanzania and was here to doing his practical as well. He was attached at the music department and he's name is Mr Thuso Gaamangwe.

Farewell

Mrs Nthoesana

Miss Keakeditswe

Kagiso Lentswenyane

Mr Thuso Gaamangwe

WELLNESS DAY

Every day we talk about living a better and healthy life, but this time it was put into practise. Wellness day was held at the old show grounds on the 12th August in Mochudi. This was organised by Mochudi Resource, Lentswe Junior. The aim of this event was to raise awareness on health issues and also involve people living with disability on fitness. The event started off with Mma Rapoo, coordinator of Motswedi Rehabilitation introducing all the present guest and welcoming them to the function. The guest speaker of the day was Ms Ramsay from Botswana Council of Disability. In her speech she mentioned that people with disability should not be used like a cure for diseases, they are also human like any other person, as people tend to use them because they are disabled.

CONSUMER FAIR

Once again the consumer fair is here, time to show case what all organisations are about. This year's consumer fair was held on the 25th-31 August 2014 at fairgrounds under the theme SHOP, EXPLORE, DISCOVER. Different departments from government and private companies came to show case what they offer. The official opening of the fair was on the 26th August. Pudulogong was part of the consumer fair under the Department of Technical and Vocational education and training. Even though the centre didn't manage to scoop any prize at the prize giving it managed to educate a lot of people who came to the stall about the visually impaired and the reception received from the guest was appreciating.

INDEPENDENT ELECTRONIC COMMITTEE

The IEC came for the voting demonstration exercise for the visually impaired who have registered for the elections on the 15th October 2014. The IEC members from Mochudi who came to do the exercise being Mr Thebe and Mr Rradikgomo. They demonstrated to the students on all the steps to follow during the voting process and mentioned on the challenges they have had with people with visual impairment when it came to voting and was happy to mention that since they have a visually impaired member in the voting committee he is hoping all the points voiced out will be taken into consideration in future. The representative for the visually impaired being Miss O. Raditloaneng who is also an instructor at the centre was happy with the proceedings of the day that prepares the visually impaired for the voting day. This year's ballot paper for the visually impaired is designed in a way that they can do the secretive vote alone without assistance unless the individual request for help which also the observers will be observing. Recommendations for how to better the polling system for the visually impaired will be submitted as the visually impaired has some questions and recommendations on voting for the future.

MOCK EXAMS

As the saying "practise makes perfect" before the final exams every year student write their mock exams to prepare themselves for the final exams. This went on for two weeks to complete. With that been done, hope it will help the student have a feel of the exam and get ready for it.
